How to Create Your Unique Student Identifier (USI) Procedure

All students studying nationally recognised training are now required to have a Unique Student Identifier (USI). A USI is an account, or reference number, comprising of numeric and alpha characters. The USI will allow students online access to their training records and results (transcript) through their online USI account.

A USI will allow you to have reliable online access to your record of training history. The USI will stay with you for life and will be recorded with any nationally recognised Vocational Education and Training (VET) courses that are undertaken from January 2015.

Go to [http://www.usi.gov.au](http://www.usi.gov.au) and follow these steps to create your Unique Student Identifier (USI).
